

Ice Hockey Pants Sizing Chart

To fit properly: Measure the player's waist.

Select the hockey pants with the corresponding size for that model.

Pants should reach the top of the player knee and extend up to cover the kidney and lower ribs. The molded polyethylene hip, kidney and tailbone pads and foam padding should cover critical areas.

Please note: The ice hockey pants sizing chart above is for your reference only. Each ice hockey pants varies depending on what brand you choose.
